

Ballyhoura Development Health Care Courses for Women

Beginning this autumn 2011, Ballyhoura Development will deliver two health care training programmes for women. One will be based in Hospital, Co Limerick and the other in Charleville, Co. Cork. The course will run three days a week for 12 weeks. The aim of the initiative is to build the skills of women and provide them with a recognised FETAC Level 5 qualification in Health Care that will cover 5 modules of learning. This will help participants to progress by improving their labour market readiness. This training programme is designed to provide practical information and skills for individual women who wish to work in the health care sector and will include:

- Care Skills
- Care Support
- Care of the Older Person
- Occupational First Aid
- Personal Effectiveness in the work place
- One to One Career Planning
- Wellness and Recovery Action Planning

This course is designed to meet the needs of the ever growing care industry in Ireland. Understanding client care and care settings will be a key part of the training. The course content will give you an excellent understanding of the fundamentals of health care support and with a recognised qualification in the care of the older person. Preferred Entry Level 4 Certificate or above, Leaving Certificate or equivalent qualifications and/or relevant life and work experience. If you have any queries, require further information or wish to book a place, please contact: Anisa on 063-91730. This programme is being delivered with support of the European Social Fund (ESF) under the Human Capital Investment Operational Programme and the Department of Community, Equality and Gaeltacht Affairs. This programme is funded under the Equality for Women Measure and is managed collaboratively between the Department and Pobal.
